

Danika Quick received a \$2,000 USCHI Memorial Scholarship. COURTESY

Danika Quick

Borup, Minn.

Parents: Kevin and Melanie Quick

Recipient of \$2,000 USCHI Memorial Scholarship

Danika has spent her life around the farm. She had a lot of harvest-time riding experience. She can drive any truck or tractor on the farm. She has driven the packer tractor, pushing silage onto the pile. She has driven trucks hauling silage from the field to the pile. She has merged hay into windrows and spent many hours in a tractor. Last year, she finally got to drive her dream machine, the chopper. That is her favorite machine to operate now.

Danika has been active in 4-H for eight years and is club president. She has participated in the State Fair many times. She is active in FFA and has participated at the state level the past three years, and has participated in one-act play, track, speech, band, choir, science fair, student council, National Honor Society and honor band. She also volunteers with community activities.

Danika plans to attend North Dakota State University in Fargo and major in animal science with plans of possibly becoming a large-animal veterinarian with her own practice. Someday she'd like to have her own small farm, too.
